

CHAMAN KUMAR SINGH

Data & Business Analyst

rudra23032004@gmail.com | +91 9310354163 | New Delhi, India | [linkedin.com/in/chaman-singh-5a67aa2b6](https://www.linkedin.com/in/chaman-singh-5a67aa2b6) | github.com/chaman-23

Professional Summary

Data and Business Analyst who connects business questions to data: requirements gathering, BRD documentation and root cause analysis on the business side; SQL, Python, Power BI (DAX) and KPI reporting on the data side. Gained hands-on experience as a Business Analyst at IHRO India, co-founded SmartHomie (₹1.4 lakh grant) and built an AI Business Intelligence & Root-Cause Engine.

Technical Skills

Data & Querying: SQL (MySQL, window functions), Google BigQuery, Python (Pandas, NumPy, scikit-learn), Data Cleaning, Data Validation
BI & Reporting: Power BI (dashboards, DAX queries), Microsoft Excel (pivot tables, VLOOKUP), KPI Reporting, Google Analytics 4, Google Search Console
Business Analysis: Requirements Gathering, BRD Writing, AS-IS / TO-BE Process Mapping, Gap Analysis, Root Cause Analysis, Stakeholder Management
Delivery & Tools: Agile / Scrum, Jira, Lucidchart, Git, Microsoft 365, Google Workspace

Experience

- Business Analyst** IHRO India (NGO), Delhi 2026
- Elicited requirements through stakeholder interviews; documented AS-IS and TO-BE grievance-handling flows and wrote a BRD (case categories, escalation rules, reporting fields) for the technical team.
 - Led root cause analysis of declining membership renewals using registration records and three stakeholder meetings; isolated causes including missing onboarding and duplicate or incomplete member records, and presented a prioritised action plan to leadership.
 - Analysed website and social media data in Google Analytics 4 and Search Console; identified drop-off points and a JavaScript SPA rendering issue limiting organic reach, and documented remediation requirements.
 - Performed gap analysis on case tracking and ownership, and aligned stakeholders with conflicting priorities on a standardised case registration workflow.
- Co-Founder & Business Lead** SmartHomie — Parul University Incubation Program 2025
- Conducted primary market research with 100+ respondents and built financial projections and a pitch that secured ₹1.4 lakh in grant funding.
 - Ran requirement-gathering sessions with early users and prioritised a product backlog for prototype development.

Projects

- AI Business Intelligence & Root-Cause Engine** Python · SQL · Pandas · NumPy · REST APIs · AI/LLM
- Built a data pipeline covering ingestion, schema detection, cleaning, validation, duplicate detection and data-quality scoring, feeding a KPI and anomaly engine (Revenue, AOV, Margin, Return Rate, Churn, Inventory).
 - Designed an evidence-based RCA workflow (Problem → Dimension Analysis → Contribution → Evidence → Root Cause → Business Impact) drilling down by time, region, product, channel and customer.
 - Added an AI-assisted layer that turns findings into prioritised Quick Win, Balanced and Strategic recommendations, with an executive dashboard and automated reports.
- Customer Churn Prediction** Python · Pandas · scikit-learn · Flask · Power BI
- Analysed 7,043 telecom customer records: 26.5% overall churn, with month-to-month contracts churning at 42.7% versus 2.8% on two-year contracts.
 - Trained a class-weighted Logistic Regression model, served predictions through a Flask app and built a Power BI dashboard on the outputs.
- Workforce & Payroll Analytics** MySQL · SQL Window Functions · Power BI · DAX
- Designed a normalised MySQL schema and 5 SQL views using window functions (RANK, running totals) for payroll and salary-rank analysis.
 - Built a 2-page Power BI dashboard with DAX measures (Total Payroll, Average Base Salary, Average Tenure, salary vs tenure) on a simulated HR dataset.

Education & Certification

MCA IIT Patna (Online) Expected Apr 2028
BCA — Cloud Computing, Minor: AI · CGPA 7.36 / 10 Parul University, Vadodara
Microsoft Certified: Power BI Data Analyst Associate (PL-300)
